

## Car Park Barrier

### The New ZEE Park® TruckShield barrier system is an exciting evolution of the proven ZEE Park AS/NZS 1170.1 compliant car park barrier

ZEE Park® TruckShield has been tested to the requirements of AS1170.1 for medium traffic areas, and is suitable for freight terminals, logistics facilities, loading docks, or anywhere separation of heavy vehicles and pedestrians is required.

ZEE Park® TruckShield uses a heavier-duty version of the proven EZY Guard post profile, and is a high-strength semi-rigid system. Truck Shield is tested and designed to exceed the force prescribed under AS/NZS 1170.1 for medium traffic areas. This is achieved with only two anchors per post.

#### Features

- Heavy duty car park barrier system
- Integrates easily with the Ingal range of car park barriers to create a complete solution
- Australian made with AS/NZS 1170.1 rating
- Easy installation and compatible with Anti-Climb Mesh

*ZEE Park® TruckShield is suitable  
wherever high-containment  
barriers are required*

#### Suitable For

- Freight terminals
- Logistics facilities
- Loading docks
- Anywhere separation of heavy vehicles and pedestrians is required

Truckshield can be fitted with our  
Anti-Climb Mesh up to 1800mm high.

The ZEE Park® is designed to spring under  
light 'nudge' impacts, but predictably  
yield under severe impacts, preventing  
damage to the car park structure.
