

Valley ICON® Series – Total Pivot and Standard
Linear Management at Your Fingertips

We designed our smart control panels to decrease the time and effort you spend, eliminate unnecessary visits to your field, and give you the control you need to manage your irrigation operation simply and efficiently.

 **Save Money**

 **Save Time**

The Most Advanced Smart Panels in the Industry

- Entering commands and programs with Valley ICON® panels is easy with the full-color touchscreen display.
- The intuitive graphical user interface shows the real-time status of the center pivot and standard linear through easy-to-understand screens and icons.
- See immediate changes in bright, vivid colors. ICON panels make managing your pivot and standard linear fast and easy.
- Connect all your fields and technology on one platform with AgSense® 365 built in* – ICON Link is installed standard.*
- Optimize your yields – every ICON panel is Variable Rate Irrigation (VRI) capable**
- Protect your investment with cable theft monitoring*

* Additional hardware or subscription required.

** VRI Speed Control is not available on standard linear

Valley® pioneered the center pivot industry in 1954. Since then, we've led the way with advanced technology built into reliable products. We listen to your needs and continue to offer industry-leading solutions like these:
